At Fresh Food
Kitchen we use fresh
ingredients, to
create fresh flavours.

Our kitchen is a bit like yours, but it's much bigger and filled with chefs. It's also full of ingredients you would trust, like free range eggs from local hens and deliciously fresh fruit and crunchy vegetables, which we prepare by hand everyday. So when you don't have the time or the patience to make a fresh, wholesome addition to your meal, you can trust us to make it for you.

The needs and desires of consumers are changing. With increasing exposure to exceptional foods from all over the world, the average purchaser demands it all: taste, looks and fresh, responsibly sourced ingredients. Over the last year, we have worked hard to refine our ingredients, our recipes and our product range to create our strongest, most desirable, most attractive range of products to date.

We are confident in the quality of our products, but we want your customers to feel the same. That's why we've created fresh new packaging that shouts fresh, local, tasty and wholesome.

This new packaging has been carefully designed to stand out from the crowd. With the brown paper theme and hand-written, persuasive descriptions, it speaks to the consumer in a friendly manner that helps them to connect with the brand and inspires them.

Our local egg farmers have proven time and time again that the traditional ways are the best. So we don't just choose, we insist upon using local free range eggs in all our recipes.

We aren't the sort of company to stand still in the market, so we don't just follow trends, we lead them. Our small but highly imaginative team of chefs are always coming up with new recipes and product ideas, so we can easily grow or adapt our product range to suit your commercial needs.

As a down-to-earth brand with clear values and a devotion to superior taste, Fresh Food Kitchen is committed to constant and highly visible growth by continually connecting and engaging with consumers. We can do this with our team of highly creative individuals who can provide you with powerful above and below the line communication materials to help build the brand in the minds of consumers and encourage both initial and repeat purchases.
